This screenshot shows each of the assigned search methods applied to a value that is in the array.

```
C:\Windows\system32\cmd.exe

This is the array: 2 4 7 9 13 26 78 83 101
Please enter an integer value: 13
Linear Search says...
13 is in the array
Please enter an integer value: 26
Iterative Binary Search says...
26 is in the array
Please enter an integer value: 78
Recursive Binary Search says...
78 is in the array
Press any key to continue . . .
```

This screenshot shows each of the assigned search methods applied to a value that is not in the array.

```
C:\Windows\system32\cmd.exe

This is the array: 2 4 7 9 13 26 78 83 101
Please enter an integer value: 3
Linear Search says...
3 is not in the array
Please enter an integer value: 77
Iterative Binary Search says...
77 is not in the array
Please enter an integer value: 99
Recursive Binary Search says...
99 is not in the array
Press any key to continue . . .
```
